

Intersect 09: Where Australian Chemistry meets Biosciences, Materials and Medicines

30 September – 2 October 2009

La Trobe University (Bundoora Campus)

The organising committee of the Intersect 09 symposium cordially invites interested students, teachers, academics and professional chemists to come to the second meeting of the LTU-CSIRO Collaborative Research Program. This meeting also features contributions from the Victorian Department of Primary Industries through the Biosciences Research Centre initiative.

The symposium (1st and 2nd October) is preceded by a workshop on Fragment Based Drug Discovery (Wednesday 30 September) and a welcome cocktail mixer (Wednesday 30 September). The symposium features plenary presentations by Professor Liam O'Connor, Professor Andrew Holmes, Professor Margaret Brimble and Dr Ian Baxendale. The full program and other symposium details including invited speakers and travel and accommodation options can be viewed at <http://www.latrobe.edu.au/intersect09/>.

Call for Abstracts

Delegates wishing to present posters at the symposium can submit abstracts now via the online registration process (<http://www.latrobe.edu.au/intersect09/registration/index.html>).

Registration

The organising committee now invites all interested to register online for the symposium at (<http://www.latrobe.edu.au/intersect09/registration/index.html>). We look forward to seeing a large number of fellow chemists at the meeting that will continue the growth of the chemistry programs at La Trobe University

For enquiries about registration contact the conference secretariat:
